Coaches

Look presentable! I know this is a great chance to look stunning and stand out against your team but don't forget, that's what the windups are for! So look presentable and more importantly look like a coach. Although you may gain ultimate respect from your team if you wear a netball uniform too.

Time flies when you're playing netball

It's that time already, only four more games will finish. The pressure is on to finish in the top four but let's not forget that enjoyment of playing the game is much more important. So before you start worrying if your team(s) can make finals make sure you first focus on the girls' enjoyment. Remember we first started playing netball in G and H grades where there were no finals to worry about and all we cared about was how much fun we were having. With that in mind the club would like to wish good luck to all years that do not have finals.

Abusing umpires

Like mentioned before we are up to that part of the netball season where each game has become vital to win to make finals. But even though the pressure is building, we must not take it out on the umpires. Each umpire is somebody's friend, sister or daughter. You wouldn't want someone abusing your friend, sister or daughter, so don't act out towards someone else's. Remember we can not play a game, final or tournament without umpires so we should be grateful for every umpire we receive.
