### A good clean game

No we haven't had any fights on court, but we are losing the fight off the court to keep our courts clean. We are privileged to play at the Fremantle Netball facilities and we need to show our appreciation by cleaning up after ourselves. We would like to remind our members to go to the effort of walking to a bin and putting their rubbish in. Just this effort will have a huge impact on keeping the courts safe and clean for our players and spectators.

Let's reflect our club colours and be green and environmentally friendly!

### You deserve a break

There is one last game before we have one week off. The club has worked so hard providing umpires on court, checking up on coaches and team progress. So well done for the first 5 weeks of the season you deserve a break.

But players do your coaches a favour and wrap yourselves up in bubble wrap and then go inside a bubble because I am sure they don't want you coming back in two weeks time with an injury. So remember them next time you're thinking of bungee jumping, rabbit shooting, cliff diving or swimming with the sharks and give it a miss.....for them.

### Keep an eye on your bags

Just two weeks ago two backpacks were taken and emptied of their contents and dumped in the parking lot during the 1:10 timeslot. Unfortunately your bags are not safe at the courts without any supervision. The Fremantle Netball Office will look after your bags at any time during the day.

If you do need your bag for coaching, playing and umpiring please leave it with a group of bags and/or ask someone to keep an eye on it. Also if you are at game and you notice someone leave their bag alone, keep a watchful eye on it for them. If we all start helping others with supervising bags then there will be no more property stolen.
